## WORK EXPERIENCE

---

### **Intern**

*DevXpress*

2024 - 2024

- Analyzed client forms to determine website requirements and created mockups and wireframes based on this information.
- Developed web pages using HTML, CSS, Bootstrap, JavaScript, and PHP, and handled backend logic development in PHP.
- Integrated contact forms and dynamic features, ensuring cross-browser compatibility and responsive design.
- Utilized GitHub for version control, enabling effective management of code versions and collaboration with team members.
- Optimized images and media for the web and deployed websites on client servers.
- Created a website translation script using YAML, Bash, and Python, as part of a team.

### **Front-End Developer**

*Saravalencia – Freelance*

2024-2024

- Developed a custom e-commerce website using WordPress and WooCommerce, incorporating a booking system for appointments and video calls.
- Designed and implemented user-friendly interfaces to enhance the customer experience, ensuring responsive and visually appealing layouts.
- Integrated payment gateways and scheduling functionalities to streamline the booking process and facilitate secure transactions.
- Coordinated with the client to gather requirements, provide regular updates, and ensure the final product met their expectations.
- Implemented SEO best practices to improve site visibility and search engine rankings.
- Conducted thorough testing and debugging to ensure a seamless and bug-free user experience.

### **Front-End Developer**

*Hilarte – Freelance*

2023-2023

- Collaborated on developing a custom e-commerce website using WordPress and WooCommerce, focusing on design and payment gateway integration.
- Ensured cross-browser compatibility and responsive design for an optimal user experience.
- Integrated various plugins and custom functionalities to enhance the website's performance and user engagement.
- Coordinated with clients to gather requirements and provide regular updates on project progress.

### **QA Tester**

*Miranetworks – Colombia*

2021 - 2022

- Prepared detailed reports assessing the functionality and design of web pages and mobile applications during collaboration with Ab InBev.
- Oversaw projects in both development and production stages, ensuring seamless progression.
- Implemented manageable adjustments to websites through CMS, maintaining flexibility in content management.
- Developed automation scripts using Cypress to streamline and enhance website functionalities.

## **Industrial Process Engineer**

*EcoWash – Colombia*

*2020 – 2021*

- Managed and optimized business operations, implementing efficiency strategies to enhance overall functionality.
- Developed and executed plans to improve workplace activities, ensuring compliance with company policies and government regulations.
- Conducted regular assessments of business processes to identify areas for improvement and implemented streamlined solutions.
- Utilized engineering principles to evaluate and enhance the performance of various aspects of the business.
- Implemented automation and process improvement initiatives to drive efficiency and productivity.
